Use "The Breast Cancer Companion" as you would use advice and sympathy from a friend who has survived her disease for ten years. Go to the Internet for more up-to-date information on risk factors, treatment options, and outcomes. Some sites I found especially useful were sponsored by The American Cancer Society, Imaginis, The National Cancer Institute, and BreastDoctor (although the latter site has some gory photographs---not for the weak of stomach!).
One of the really scary things about this book is the youth of the women who were diagnosed for the first time. (...) Many of the women whose stories are told in "The Breast Cancer Companion" were in their twenties or early thirties when they first discovered a suspicious lump.
