An edition of Business History around the World (2003). Business History around the World, by Franco Amatori. 0 Ratings. Historians are documenting and analyzing the evolution of a wide range of important companies, their patterns of innovation, production, and distribution, their financial affairs, their political activities, and their social impact. Each chapter is written by a prominent authority who provides an up-to-date assessment of the state and significance of research in their area. An opening section debates the identity and borders of the discipline, followed by wide-ranging surveys of the business history literature in the United States, Europe, Latin America, Japan and the Chinese-speaking world.
