Digital storytelling is the art of combining images, audio, and sometimes video to tell a story (Frazel, Digital storytelling guide for educators, International Society for Technology in Education, Washington, DC, 2010). Research shows digital storytelling improves engagement, critical thinking, and creativity. The active process of storytelling ensures that trainers and educators can meet the needs of different student groups, that learners are interested in and motivated by the issues presented, and that they thus develop their desire for learning (Frazel, 2010). Digital stories allow students to speak in their own language -that is, to express what they understand about topics in ways familiar to them (Ohler, 2013). Digital Storytelling Guide for Educators.
