"Into Thin Air is a remarkable work of reportage and self-examination. And no book on the 1996 disaster is likely to consider so honestly the mistakes that killed his colleagues." —Newsday. "A harrowing tale of the perils of high-altitude climbing, a story of bad luck and worse judgment and of heartbreaking heroism." —His account of an ascent of Mount Everest has led to a general reevaluation of climbing and of the commercialization of what was once a romantic, solitary sport; while his account of the life and death of Christopher McCandless, who died of starvation after challenging the Alaskan wilderness, delves even more deeply and disturbingly into the fascination of nature and the devastating effects of. In November 1997 a book titled The Climb arrived in bookstores —Anatoli Boukreev's account of the 1996 Everest disaster, written by an American named G. Weston DeWalt. It was fascinating, for me, to read about the events of 1996 from Boukreev's perspective. Parts of the book were powerfully told, and moved me deeply.
