

## Curriculum Vitae

Name : Helen Altman Klein PhD Professor Emeritus 2011 - present  
Department of Psychology  
Wright State University  
Dayton, Ohio 45435  
e-mail: helen.klein@wright.edu

Address : 3601 Connecticut Avenue NW  
#110  
Washington D.C. 20008  
937/205-0664

<u>Education</u> :	Ph.D. Experimental Psychology	University of Pittsburgh	1969
	M.S. Experimental Psychology	University of Pittsburgh	1967
	B.S. Psychology	Michigan State University	1964

### Experience

President and Senior Scientist. MacroCognition LLC. 2007 –present

Professor of Psychology; Director, Applied Psychology Laboratory. Wright State University, 1984-2011.

Visiting Scholar, The Hebrew University, Jerusalem, Israel. December, 1984 - March 1985; August 1992 - January 1993.

Visiting Professor of Psychology, Western Australian Institute of Technology, Perth, Western Australia, July-August, 1978.

Director, Applied Behavioral Science Program, School of Graduate Studies, Wright State University, 1976 - 1978; 1980 - 1989.

Associate Professor of Psychology, Wright State University, 1974 - 1984.

Visiting Assistant Professor of Psychology, Oakland University, Rochester, Michigan 1973 - 1974.

### Grants and Contracts

#### Strategic Social Interaction Modules (SSIM).

Task Area 1: The science of human interactions and Human Dynamics. DARPA Oct 2011 – April 2015 6.1 funding.

**Task Area 1B:** Prime: SoarTech and Washington State University.  
MacroCognition a subcontractor

Mapping the Terrain of Multinational Trust, AFRL. Prime: MacroCognition LLC, 2010 -. Wright State University PI for experimental component.

Modeling Leadership Dynamics in Multinational Environments. DARPR. 2010 Prime: MacroCognition LLC; PI Wright State University.

Algorithmic Behavioral Forecasting, DARPA. Contract No. W31P4Q-10-C-0084, Prime: EDaptive Computing, Inc, 2010, Consultant.

Air Operations Planners: Cognitive Demands and Training Needs, AFRL. Prime: Stottler-Henke Associates, Inc. 2007. Consultant

Research and Analysis of Cultural Influences. FGM Prime: Applied Research Associates, Inc. 2006 - 2008. Consultant

Development of Cross-Cultural Perspective Taking Skills. ARI. Prime: 361 Interactive, Inc. 2007 – 2008. Consultant.

The Arab Middle East: Enhancing the Cultural Lens Model. AFRL/HE. Prime: Klein, Associates, Inc. 2004 - 2006. Subcontract. PI

Rosetta I, Rosetta II: Mapping Cognitive Differences. AFRL//HE. Prime: Wright State University. 2003 - 2008 PI.

The Impact of Culture Differences on Multinational Operations (SASO). ARL. Prime: Klein Associates, Inc. 2001 - 2003. Subcontract.

Aviation Cultural Lens. The Boeing Company. Consultant Agreement 6-1111-10A-0112 Prime: Wright State University. 2001. PI

Cultural Lens Training Program for Military Operations. ARI. Prime: Klein Associates, Inc. 2001- 2002. Subcontract.

Conceptual Modeling of the Command Decision Process. DMSO. Prime: Sterling Software, Inc. #61339-01-P-01382000 - 2001. Consultant

Cultural Lens in Asymmetrical Operations. DARPA (DAAH01-00-C-R094)., Klein Associates, Inc. 2000– 2002. Subcontract.

### **Articles, Chapters, and Proceedings**

Helen Altman Klein, Sarah M. Jackson, Kenley Street, James C. Whitacre, Gary Klein, "Diabetes Self-Management Education: Miles to Go", *Nursing Research and Practice*, vol. 2013, Article ID 581012, 15 pages, 2013. <https://doi.org/10.1155/2013/581012>. Show citation.

Diabetes Self-Management Education: Miles to Go. [15]. The selection strategy reflected the standards for articles reporting meta-analyses in psychology [72]. We searched MEDLINE, PsycInfo, and CINAHL for English language publications using the keywords "diabetes mellitus" combined with each of the following: "patient education," "educational intervention," "self-management education," "psychological therapies," and "clinical trials." To support type 1 diabetes self-management in this population, we developed the diabetes self-management app *bant*, which included wireless blood glucose reading transfer, out-of-range blood glucose trend alerts, coaching around out-of-range trend causes and fixes, and a point-based incentive system. However, their strong propensity toward technology presents a unique opportunity for the delivery of novel self-management interventions. To support type 1 diabetes self-management in this population, we developed the diabetes self-management app *bant*, which included wireless blood glucose reading transfer, out-of-range blood glucose trend alerts, coaching around out-of-range trend causes and fixes, and a point-based incentive system.
