Learn more. Multiple Correspondence Analysis with None-Binary Categorical Dummy Variables in Python using mca and prince modules. Ask Question. Asked 3 years, 11 months ago. Correspondence definition is - communication by letters or email; also : the letters or emails exchanged. How to use correspondence in a sentence. 1a : communication by letters or email also : the letters or emails exchanged I have a pile of correspondence on my desk. b : the news, information, or opinion contributed by a correspondent to a newspaper or periodical. 2a : the agreement of things with one another the correspondence between spelling and pronunciation. b : a particular similarity. None of the propositions that I have placed before the Court thus far, with perhaps the exception of the relevance of the precontract correspondence, can be controverted. Still, Truman's political troubles did not take the starch out of him, and his correspondence contains many examples of his typically blunt language.
