## Description:

What if learning was *exciting*?

What if students felt *important* and *empowered* every time they walked into the building?

What if parents **looked forward** to calls from their children's teachers and principals, instead of cringing when the school's number popped up on their phones?

To Todd Nesloney and Adam Welcome, those aren't far-fetched what ifs; they can (and should) be a reality for every teacher, school, parent, and student.

In *Kids Deserve It!*, Todd and Adam encourage you to think big and make learning fun and meaningful for students. While you're at it, you just might rediscover why you became an educator in the first place.

Learn why you should be calling parents to praise your students (and employees).

Discover ways to promote family interaction and improve relationships for kids at school and at home.

Be inspired to take risks, shake up the status quo, and be a champion for your students.

It's about an abductee and captor, and it is enthralling. The plot twist at the end had me staring wide-eyed at the ceiling for at least half an hour trying to wrap my mind around what I'd just read "it left me craving more, and possibly needing therapy. Fortunately, it's the first in a five-book series!" The kids at school thought it was cool what my dad did and while he sometimes asked me if anyone gave me a hard time, they never did. There was respect among all even the kids in shop class. I didn't grow up wanting to be a cop but one fateful night, as a freshman in college, that all changed. I've been called every name you can think of and many of them with racial overtones and it's never come from cops. I've watched African American cops take the brunt of this and even talked one rookie out of quitting after he was berated by a lot of cowards that had the same skin color as him.
