Biography of the brilliant, mercurial, seductive, and maddening queen who became the most powerful ruler of her time. Queen Elizabeth I was born on September 7, 1533 in Greenwich. She died on March 24, 1603 in Richmond, Surrey after 45 years as queen. Elizabeth was the daughter of King Henry VIII and Anne Boleyn. In 1536, Henry had Anne beheaded. One of the reasons he had her killed was because she did not give birth to a son. As a princess, Elizabeth gave her family gifts of prayers and poems she had translated herself, written out in her own hand, and decorated with embroidered book covers. She was only eleven when she translated a poem from French into English. In 1554, when her sister Mary was queen, Elizabeth was sent to the Tower of London as a prisoner. Mary believed that Elizabeth supported various plots to remove her from power.
