This Perspective sees human behavior as based on self-interest and rational choices about effective ways to accomplish goals. Rational Choice Perspective. This theory, that falls under the Rational Choice Perspective, starts with the premise that social behavior is based on the desire to maximize benefits and minimize costs. (People give in order to get). True or False: According to the Social Behavioral Perspective, human problems are not all formulated as undesirable behavior. True or False: According to the Social Behavioral Perspective, human problems are not all formulated as undesirable behavior. True. True or False: According to the Social Behavioral Perspective, all human behavior is learned by the same principles of learning. True. True or False: According to the Social Behavioral Perspective, human problems are not all formulated as undesirable behavior. True. True or False: According to the Social Behavioral Perspective, all human behavior is learned by the same principles of learning. True.

Human Nature is dedicated to advancing the interdisciplinary investigation of the biological, social, and environmental factors that underlie human behavior. It focuses primarily on the functional unity in which these factors are continuously and mutually interactive. These include the evolutionary, biological, and sociological processes as they interact with human social behavior; the biological and demographic consequences of human history; the cross-cultural, cross-species, and historic Whether you've loved the book or not, if you give your honest and detailed thoughts then people will find new books that are right for them.
