The Matschie's tree kangaroo is one of only ten tree kangaroo species on the planet, found only in New Guinea. Scientist Lisa Dabek studies this rare animal, traveling through the Papua New Guinea cloud forest (cool-temperature rain forest) to document and track the resident population; author Montgomery (Search Do you want to read the rest of this article? Request full-text. Book Summary. It looks like a bear, but isnâ€™t one. It climbs trees as easily as a monkeyâ€”but isnâ€™t a monkey, either. It has a belly pocket like a kangaroo, but whatâ€™s a kangaroo doing up a tree? Meet the amazing Matschieâ€™s tree kangaroo, who makes its home in the ancient trees of Papua New Guineaâ€™s cloud forest. And meet the amazing scientists who track these elusive animals. This title has been selected as a Common Core Text Exemplar (Grades 4-5, Informational Texts). Related Units and Lessons. The Quest for the Tree Kangaroo 5th Grade Unit.
