Brief Summary by Poppy Hutchinson (from [www.enidblytonsociety.co.uk](http://www.enidblytonsociety.co.uk)): A mysterious arrival at Kirrin Cottage, in the middle of the night, sparks excitement amongst George and her cousins. Berta is a vulnerable, young American girl, (daughter of a rich man) who is fleeing kidnappers and the Kirrin Household have been personally asked to protect and disguise her. When I first read the book round the age of eleven or so I was quite attracted to Berta but my attention was eventually re-directed towards a couple of other EB females! The famous children are growing older and Eileen Soper the artist records their changing physical appearance fairly accurately although more upwards than outwards but then I suppose you couldn't have a fat member of the Famous Five. As far as the title goes it may once again have been a little difficult to be more specific without revealing too much.Â Five at Kirrin Cottage Again? Five Have Plenty of Fun? O.K!
