WALLIS coined the term "new religious movement" to cover the different types of religious movements growing. Characteristics of New Religious Movements. The enormous diversity within the current wave of new religions cannot be overemphasized. Whilst nineteenth century sects such as the Jehovah's Witnesses, Mormons, and Seventh Day Adventists certainly differ from one another, they do share some sort of relationship to the Judeo-Christian tradition. Furthermore, economic, political, and social changes in the outside world can introduce radical changes within the "cult scene." Comprehending Cults, Second Edition, provides a sociological interpretation of the phenomenon of new religious movements. While the author does not offer an apologia for cults--in either a religious or a sociological sense--he does attempt to replace suspicion and misinformation with a greater knowledge of the facts (as best we know them) and a measure of sympathetic understanding. Completely revised and updated in this second edition, the book examines all aspects of cults, while striving to delineate the very real limits of our knowledge. In addition to dealing with the troublesome aspects o

The nature of new religion, be it in relation to movements, groups, or more personalised and idiosyncratic forms, is that its newness is dependant upon its context, irrespective of the time period in question. Indeed, the historical record is replete with examples of forms of religiosity that would comfortably fall within our conception of "new"™. Scholars have profitably applied models from the study of NRMs to early Christianity (Esler 1995), and in the ancient world Egyptian and Persian mystery religions, such as the cults of Isis and Mithras, functioned in much the same way as Buddhism and New Religious Movements (NRMs) according to Wallis: World Affirming NRM. World-affirming NRMs "or cults" seek to offer their members spiritual enrichment. They often do not include belief in a God and generally make few demands on their members. Instead they offer personal fulfilment, meditation and ways to turn individuals into "better people", unlocking their "hidden potential". Stark and Bainbridge look at religions and spiritual movements as if they were business organisations, referring to participants/adherents/congregants as customers or clients. An audience cult is one where the participant (or client) is a passive consumer. People might attend lectures, read books or buy DVDs to hear a particular message or consume a particular set of ideas. In the sociology of religion terms like "church," "sect," "denomination," and "cult" have specialized meanings identifying specific types of religious movement. The classic sociological definition of "cult" is a mystically oriented intellectual group. In theology cults are groups which deviate from traditional forms of Christian orthodoxy. When placed in sociological and historical contexts, most new religious movements appear far less strange than media portrayals. But because most Canadian provincial education departments exclude the teaching of religion from state schools many people have few resources upon which to base their judgements. ==new religious movements==.
