

Concise Manual of Sewing 128 pages A. V. White 9781447400721 James Press, 2011

ISMACS-collected books about industrial sewing and industrial sewing machines. Concise information on the general construction of the principal types of Singer industrials, with representative models dissected. Emphasis on lockstitch, but also chain-stitchers (1 & 2 thread); covering-, overedge-, pique and hem-stitch machines, etc. Intended for use in conjunction with shop practice work, lecture discussions and, it stresses, the appropriate machine manual and parts book. A dense instructional manual for sewing machine engineers. Diagrams and exhaustive text on numerous Soviet industrial machines -- all of which look suspiciously like Singers, down to the identical class numbers. The Willcox & Gibbs High Speed Lockstitch and various blind-stitchers also appear. The sewing bible : a modern manual of practical and decorative sewing techniques. 1,202 Pages-2008-52.84 MB-10,728 Downloads-New!
