Professional certification, trade certification, or professional designation, often called simply certification or qualification, is a designation earned by a person to assure qualification to perform a job or task. Most certification programs are created, sponsored, or affiliated with professional associations, trade organizations, or IT vendors interested in raising standards. Even those programs completely independent from membership organizations enjoy association support and endorsement. The SHRM Certified Professional (SHRM-CP) certificate is a human resources certification offered by the Society for Human Resource Management (SHRM). This certification is designed for HR professionals who have been in the field for several years and are seeking out management-level positions. The SHRM-CP certification program is a bit different than other certification programs because there are different requirements depending on whether or not you graduated with an HR-related degree. CertiProf offers a wide range of professional certificates to individuals worldwide. Agile Coach, Scrum Master, DevOps, Kanban, Design Thinking, Cyber Security and more. Certifications. Establish standards for IT Education and play a vital role in developing a qualified workforce. Demonstrate your capacity and willingness to excel and improve your professional development and skills. [READ MORE](#). Are you interested in becoming a CertiProf partner? Professional certification is a standardized process that enables an individual to demonstrate a certain level of competency in a specific career or job function.
