The story Helix: Limited Edition Boxset (Episodes 1-3) is a Thriller/Suspense book set. Olesya is living with her family in post-Soviet Russia. Her life changes when a group calling themselves, The Fifth Column discovers her genetic anomaly and she is taken from her home to a special program. The characters come alive and you can root for Olesya. The atmosphere of the book comes through loud and clear. There is a fourth book out now and I can't want to start reading that one. If you love spys, human genetics, secret societies and actions that is really intense, this is the box set for you. There is violence and adult situations so I believe that this book is meant for readers 18 years of age and up.. I voluntarily reviewed a copy of this book. This is my honest review. Read more.
