This is a superb volume on the development of small arms and shotguns up to the year of 1910. Well written and well illustrated, it can be read by the novice and the expert with equal enjoyment and increase of knowledge. Reviewer: dr ali - favoritefavoritefavoritefavoritefavorite - December 20, 2008 Subject: The gun and its development. The greener family is very well known family in the gun making field, that are inventors, writers and gun manufactures, the book written by mr william willington greener in last 1800 and reprint in 1910. the book completely covers the a.b.c. to x.y.z its the excel
