Ed Emberley books are a great way to teach kids fundamentals of drawing, just not THIS book. I highly recommend his other books (Big Green Drawing Book, Big Purple Drawing Book, Drawing Book of Faces, Trucks and Trains, etc). There are fewer drawings, but plenty of page space for larger instructions. There aren't many books from my childhood that have made a mark like this one, and when I gave it to my daughter last Christmas I got teary eyed seeing how much she enjoyed it as well. The pictures are small, but that is the point! Don't wait or not buy because they might be "too small" Your child will love this book and the novelty of tiny images. Ed Emberley, now 86, is one of the world's most successful children's book illustrators which is due in no small part to his playful approach to art. Children's book illustrator Ed Emberley is a firm believer in not taking art too seriously. Case in point: While studying at the Massachusetts School of Art in the 1950s, he gained a reputation for dragging a papier-mâché dog around campus on a leash. In Ed Emberley's Drawing Book of Animals, for instance, a small half circle transforms into a porcupine through the addition of a few staccato lines (for spikes), and a tiny dot (for an eye). In Fingerprint Drawing Book, fingertips dipped in paint and pressed to paper become butterfly wings, tadpole torsos, and snail shells.
