The Hebrew Bible is written in Hebrew scrolls, the writing process being strictly governed by rules down to placement of specific letters. These rules have roles in how the text is interpreted, including in deriving laws. The Writings denotes the final category of the Hebrew Bible, collected in its present form around the first century b.c. Some of these books are later works chiefly concerned with Israel's history during and after the exile, such as Lamentations, Esther, Daniel, Ezra, and Nehemiah (most of which are not covered in this study guide). This was purchased for my Old Testament class at the community college I attend for a much cheaper price than the bookstore. Like most college classes, I rarely used the book except for citations for writing assignments and the occasional discussion forum. However, as a Southern Baptist, I found a lot of the articles interesting and would find myself reading from this text even when it was not assigned.
