

Britain's Inland Waterways: An Undervalued Asset : Consultative Summary; Taylor & Francis, 1996; 1996; Inland Waterways Amenity Advisory Council

UK inland waterways: passenger ships. Passenger ships are ships that carry more than 12 passengers. On inland waters there are three different types of passenger ships. In addition, the Inland Waters Small Passenger Boat Code provides a national standard for small commercial vessels carrying up to 12 passengers. These vessels are not classified as passenger vessels in accordance with Merchant Shipping legislation using categorised waters. EU states: passenger and non-passenger vessels. Inland Waterways of France has been the standard reference on the French canals and rivers for nearly fifty years. The original author, E.E.Benest, established the familiar presentation in which a description of each waterway was supported by a table of distances. For this latest edition, David Edwards-May has investigated the many developments that have taken place during the last ten years, to add to his detailed overview of the extraordinarily diverse system of navigable rivers and canals. Rivers of Britain. Catalogue Code: 750061. £25.00. Available to buy online. Adlard Coles. Inland Waterways Logbook. Catalogue Code: 720063. £9.99. Transit inland waterways transport: Inland waterways transport through a national territory between two ports both located in another national territory or national territories provided that in the total journey within the national territory there is no transshipment. Calculation of EU aggregates: In Table 3, the EU-27 international and total goods transport in tonnes is calculated excluding double counting.
